

## CHARGES GRAFT ON FLOOR OF COUNCIL

Mr. Fernstrom Makes Statement That He Had Been Offered a Bribe.

REFUSES TO RETRACT WORDS

Campbell Contract Made the Occasion For Sensational Statements—Open Attack on Mayor.

Graft, collusion and attempted bribery were the ugly charges interjected in the consideration of the Campbell Building company's claim against the city on account of the wooden stove outlet pipe, at the meeting of the council last night. The charges were made by Councilman Fernstrom, who although he would not give specific detail, yet reiterated his general accusations, with the exception that a committee was authorized to investigate the charges. This committee, to consist of five members, will be named by President Ferry Monday night, and the Campbell claim will be held in abeyance pending the investigation.

Councilman Fernstrom charged openly that Mayor Brandt, acting at the suggestion of A. Campbell, president of the Campbell Building company, had knowingly changed the Campbell supplementary contract with the city after it had been authorized by the city council; that payment for work was allowed by the board of public works at times and on dates when no work had been performed, and that Mr. Fernstrom himself had been approached with the offer of bribe money in connection with the Campbell contract.

Mr. Fernstrom, however, although asked did not disclose the identity of the bribe-offer. Mr. Fernstrom was also given the opportunity several times to withdraw his charges and in situations but refused to retract.

RUFFLED FEELINGS.

The meeting of the council in its consideration of the Campbell claim was marked with a considerable show of temper. The president of the meeting was to pass upon the report of the board of public works recommending final settlement. In this final bill was an item of approximately \$1,100 allowed for extra work, and this brought out the first discussion.

Chairman H. G. McMillan, C. D. Bookridge and Clerk F. R. Christensen were present at the meeting, and Mr. Christensen from a mass of papers and reports reviewed the entire transaction of the Campbell contract. This review brought out the fact that although the building company under its contract should have been charged \$10 a day for 130 days for forfeiture, no charge had been made.

FERNSTROM'S BOMB.

The council was about to decide to make a settlement on the basis of 70 days' forfeiture, when Councilman Fernstrom dropped his bomb of accusations. Characterizing the whole affair of the contract as a steal and graft he went on to say that he knew that after the supplementary contract had been approved by the city council it had been changed by the mayor. Mr. Fernstrom insisted that the contract as authorized by the council had contained the provision that the \$10 a day forfeiture clause was to be effective during the period of the testing of the sewer, but that after the contract had been altered, giving the contractors the benefit of the testing period.

INVESTIGATION DUE.

Mr. Fernstrom was admonished by the chair, but he continued firm in his assertion and then caused greater surprise with his blunt statement: "I was offered a bribe myself." Mr. Campbell of the building company, who was present, asked Mr. Fernstrom to name the party who had offered the bribe, but Mr. Fernstrom declined. With the charges and countercharges flying and being handled about the matter was cut short by a motion made by Councilman Mulvey that a special committee of five be appointed to investigate the charges. The motion was adopted and President Ferry announced that he would name the committee Monday night.

## King George III., IV. and V. and Heralds Announcing the Proclamation of the New Ruler.

### FINE DISPLAY IN MANUAL TRAINING

Work of L. D. S. U. Students in Furniture and Needle Work Highly Creditable.

Those who admire fine art in furniture should not fail to see the beautiful display made by the students of the manual training department of the L. D. S. U., both in the Z. C. M. I. windows and the Lion House. That on display on Main street is the work of the third-year students, and includes a handsome desk in turned oak, the work of Wallace Grace, a large chair upholstered in leather by Albert Peterson, a beautiful writing desk in mission dark wood with artistic brass finishings by Jean Driggs, and what is perhaps the most conspicuous piece in the window, a great clock by Clifford Hodgson, about seven feet in height and done handsomely with brass art nails, making a most artistic article of furniture. There is more of the fine handwork over at the Lion House, the dining room on the second floor being filled with work of others of the third year pupils, one of the most interesting specimens being a long table made from a walnut tree raised by the student's father and sent to him in the shape of a log. There is a beautiful writing desk done with dark wood and with panels of green art glass set in the frame, while the design throughout is most original and artistic. It would be superfluous to try and name the handsome specimens, all of which show wonderful merit.

Down stairs in the lower hall is an exhibit of the first and second year classes which awakens hardly less admiration than the other, in consideration of the fine handwork shown, for the time spent with instruction. Another interesting display is the needlework done in the sewing class under direction of Miss Belle Barton, the most of it being the result of a half year's training, and including delicate fingerings and dresses, from common house gowns to silk and muslin ones of fashionable design and finest needlework. It is well worth a visit from all interested in home talent.

The instructor in manual training is A. S. Klenke.

### POWDER MAGAZINES MUST BE REMOVED

Within Ninety Days All Must be Transferred Outside City Limits Is Order of Council.

Within 90 days all powder magazines must be removed outside the city limits under the provisions of a resolution passed at the city council last night. An ordinance also passed makes it unlawful for any railroad to permit to stand or remain on any main or side track or switch within the city limits any powder car or car containing explosives for longer than 16 minutes. Stores will not be permitted to keep on hand more than one pound of any explosive.

The salary of the poundkeeper has been increased from \$50 to \$60 per month, upon recommendation of the salaries committee.

A proposition was presented to the council last night by the Universal Sanitary Reduction & Power company of San Francisco for the installation of a garbage incinerator plant. The company offers to erect and equip a 50-ton plant at approximately \$45,000 and a royalty of 17½ cents per ton for a period of 17 years. The matter was referred to the sanitary committee and the city health commissioner.

"HALLELUJAH" WEDDING.

Well Known Salvation Army Captains Will Wed Here Next Week.

A "Hallelujah" wedding will take place at the Salvation Army hall, 129 east First South, next Monday, May 23, the contracting parties being Captain Albert E. Chesman and Captain Julia Williams, both of whom have won distinction in the west for their devotion to the cause. The ceremony will be performed by Colonel W. P. Jenkins of the army, whose visits to the various cities are always marked with unusual activity among the officers and followers. Invitations to the event have been issued, and the occasion of the wedding will mark an epoch in the history of the work in Salt Lake City.

Ball, Saturday night, Saltair.

### CANNON WOULD HANG INSURGENTS?

Declares That Shooting Is Too Honorable a Death for Some Members of the House.

COMPARES THEM WITH JUDAS

If He Were a Mere Partisan He Would Like to See the Democrats in Power.

New York, May 18.—Shooting was too gentlemanly a fate for certain Republicans, thundered Speaker Cannon of the house of representatives tonight as he addressed the annual banquet of the National Association of Manufacturers at the Waldorf-Astoria.

Speaker Cannon was making an eloquent defense of his conduct as speaker and he was wildly cheered.

"You believe the Republicans have a majority of 44 in the house of representatives," said the speaker, "and yet you are under the sway—I will not say of dishonest—of mistaken people, and now and then a demagogue, seeking power; and I can pick out among them men who would have competed with Judas, who betrayed his master."

"We have a great Republican president and a Republican majority, yet we cannot say whether there are not enough cowards to flock with the Populist Democratic minority and leave us without an efficient Republican majority."

"If there were two armies drawn up in actual conflict, do you know what would be done with such men?"

"Shoot them!" cried one of the diners.

"Shoot them!" thundered the speaker. "Shoot them! That would be too honorable a death for them. Hanging would be their fate."

"It is the essence of popular government that majorities should rule and be held responsible for their mistakes. Therefore I ask you to make a manly fight for the Republican party so that when the polls close in November you may give a majority to the Republicans in the house of representatives and hold it responsible or give a majority to the Democratic Populist minority."

"In 1912 we elect a president, on March 4 the present Congress goes out of existence. If I were a mere partisan, I'd like to see the Democrats have full power in both houses so they would be forced, because of their opposition to the Payne tariff law, to act upon their pretensions and enact a new tariff law. Then they would have to that defend rather than misrepresent the present tariff law. They would have a baby of their own to protect."

"If I were a mere partisan, I'd be glad to see Dilliver, Bristow, LaFollette and Clapp of Minnesota join hands with Champ Clark and company. But that would bring sorrow, shortened wages and misery to millions of hearthstones; therefore, as a man of 74, who will soon be where I will wear either a muslin or asbestos halo, I'd rather march to defeat in the future than to have our Populist or so-called progressive friends reaping a victory."

"I would rather that we carry the next house and senate by a sound real Republican majority although we lost in 1912. I'd postpone the evil day as long as possible and perchance, though it is a forlorn hope, wisdom may come south of Mason and Dixon's land. God bless you—you need not bother about New England; she'll take care of herself."

Earlier in his address the speaker said: "The demagogue, the short-sighted man, the specialist, the philosopher—I was about to say the college professor, but there are notable exceptions—find fault with our country. To such I have no message. They sometimes occupy the uplift magazines or the metropolitan dailies and they sometimes anatomize the existing order. It is our place to march on and say, 'None of these things move me.'"

AGAINST RECIPROCITY WITH UNITED STATES

Montreal, May 18.—The chamber of commerce has come out strongly against reciprocity with the United States. A resolution would endanger the British preference and Canadian industries.

NAMED HIS BABY HALLEY.

Chicago, May 18.—Halley Abrams is the name of a tiny little girl who arrived yesterday at the home of J. Y. Abrams, chief house detective at a downtown hotel. The little stranger

arrived shortly after noon and the physician who attended asked permission to name her. Permission being given, he said:

"All right. You will henceforth be known as 'The Comet Girl' and I choose for you the name of 'Halley.'"

### ELLA FLAGG YOUNG ELECTED TO SUCCEED HERSELF

Chicago, May 18.—Mrs. Ella Flagg Young, superintendent of schools, was elected to succeed herself for six months at a meeting of the board of education yesterday.

It was announced that the University of Illinois will confer upon Mrs. Young the degree of doctor of laws at the commencement exercises in July.

### TO EXPLODE SUBMARINE MINES AT SAN DIEGO

San Diego, Cal., May 18.—Three submarine mines will be exploded in the harbor tomorrow in full view of Fort Rosecrans. For several weeks a twenty-eighth company of coast artillery

at the fort has been receiving instructions in handling mines on the mine planting steamer Arctosted. The men tomorrow morning will plant three mines near the fort. Later in the day a boat towed by the Arctosted will pass over the mines and they will be successfully exploded by an electric spark controlled from the shore. This will complete the course of instruction given by the Arctosted here and she will then go north.

### EXCURSIONS EAST. Via Oregon Short Line.

To Cheyenne or Denver and return	\$22.50

CITY TICKET OFFICE, 201 Main St.

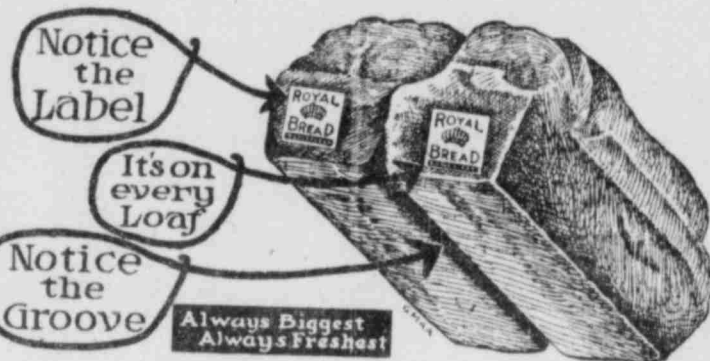

## The People of Salt Lake Are Hereby Warned!

A little baker in Salt Lake has imitated the original shape of Royal "Table Queen" Bread except he dare not show "the groove," which is only obtained by using the "Mueller Patent" Bread Pan.

This "imitation" is for the purpose of deceiving the housewife when she *thinks* she is buying "Table Queen."

The cheap "imitation" does NOT carry a label. If it DID the few who have been fooled into thinking that it was "Table Queen" would not buy the inferior "imitation."

BEWARE of the bread without a label. Tell your grocer that you will not have it.

"Table Queen" ALWAYS carries a label. Don't accept the statement made by a very FEW grocers that "it may have fallen off."

The successful grocer sells "Table Queen" because it helps to build up trade—and to keep it.

The taste and purity of "Table Queen" cannot be imitated.

### Was it Insured?

Everybody asks this question after a fire. The next question, which is just as important, "What company?" nobody asks. The property owners of America pay annually \$300,000,000 in premiums for fire insurance, but not one in ten knows even the name of the company whose policy may be his only asset in case of disaster. Do you know? If not, what an astonishing state

of affairs for an enlightened business-like American citizen. If you do know the name of the company, what do you know of its standing or its reputation for fair dealing?

The Hartford Fire Insurance Company, of Hartford, Conn., for 100 years has paid promptly every just claim—in all, more than \$130,000,000.—When next you insure, get a "Hartford" policy.

Heber J. Grant & Co., Gen. Agts. 20 So. Main Salt Lake City, Utah

## FRECKLES

May Worst Month for This Trouble. How to Remove Easily.

There's a reason why nearly everybody freckles in May, but happily there is also a cure for these ugly blemishes, and no one need stay freckled.

Simply get one ounce of othine, double strength, from Schramm-Johnson Drugs and apply a little of it at night, and in the morning you will see that even the worst freckles have begun to disappear, while the light ones have vanished entirely. Now is the time to rid yourself of freckles, for if not removed now they will stay all summer, and spoil an otherwise beautiful complexion. Money back if othine fails.

### DUPLICATING AND TRIPLICATING SALES BOOKS

You may call them counter pads, sales pads, charge books, or any manner of names. But in any case I AM THE MAN

### Do Write JOB WHITE

Mail address just "Salt Lake," never mind Street No.—there's no other.

The McCaskey Account Register, all their books and supplies.

MOTHERS should teach their little ones the daily use of some good dentifrice and by so doing spare them much pain and annoyance

### Dr. Lyon's PERFECT Tooth Powder

cleanses, preserves and beautifies the teeth, prevents tooth decay and imparts purity and fragrance to the breath.

### Siegel's 228-230 MAIN STREET The Store for Men and Boys.

### How About You?

No one who has ever had a BELL TELEPHONE in the home would think of keeping house without it. Why should you not avail yourself of this economical necessity which your friends and neighbors find indispensable?

REASONABLE RATES

Call the Manager.

### Hay's Hair Health
